Wash Your Mask

Reusable masks must be properly washed to rule out the presence of viruses and bacteria.

EXPERTLY APPROVED METHODS

WASHING MACHINE

- ▶ Be sure to wash it afterwards of each use in a bag for delicate clothes and thus avoid that the elastic detaches.
- ▶ Wash it with detergent or you can also use any type of bleach but it does NOT contain CHLORINE.
- ▶ If you have a dryer you can dry on a 15-minute cycle or outdoors for 2 hours.
- ▶ Do not add products chemicals or disinfectants to this product.

IRON

- ▶ Disinfect non-flammable fabrics using the dry heat option

HANDWASH

- ▶ You can prepare hot water with detergent in a homemade container or you can also use any type of bleach but it does NOT contain CHLORINE.
- ▶ Let the mask soak in the water you have prepared, for at least 5 minutes.
- ▶ Make sure to allow to air dry for 2 hours before using it again.
